The Electrical Inspector to Government has commented as follows in regard to the reduction of rates proposed by the Hospet Municipal Council.

Ø Clause 1(a) - Domestic lights and fans:-

The reduction of the rates for the first 100 units from 7 annas to 6 annas per unit, proposed by the Council is in order and may be approved. In order that the next step may be more attractive the Council may be advised to revise tariff 1(a) as shown below:-

"1(a). For lights only or combined installations of lights, permanently connected ceiling fans and small domestic appliances, all on one circuit at 6 annas per unit for the first 100 units per month and 5 annas per unit for the rest. This tariff is subject to a minimum monthly charge of Rs.2/- per service.

For a guaranteed consumption of 250 units per month the rate will be 4½ annas per unit",

Clause 2(a):- The revised rates for power used during the hours of 10 P.M. to 6 P.M. proposed by the Council may be approved. I cannot recommend the Council's proposal to charge at a flat rate of 2½ annas per unit the entire consumption during the restricted hours. In view of the large amount of power and of mains still available and the importance of obtaining revenue I strongly oppose the levy of 25% surcharge. But as the existing tariff permits the levy of such a surcharge, the Council may be allowed to retain it subject to the condition that the words 'will be increased' are changed to "may be increased with the approval of the Electrical Inspector to

Clause 3.- The words 'applicable to cinemas' and "guaranteed" occurring in this tariff should be omitted. Otherwise it is in order.

Clause 4.- The Council's intention to reduce the period to four hours is not sound; five hours is the requisite period throughout the province for this class of consumer. It is not clear why the Council proposes to drop the standard 40 watt lamps. There is no lamp c.. 30 watts on the market. If the Council wants to introduce a separate rate for lamps of lower wattage it may provide for the next lower size 25 watt lamps as follows:-

"4. Bazaar lamps. (a).- A flat rate of (i) Rs.2/- per month for a 40-watt lamp or (ii) Rs.1-8-0 per month for a 25 watt lamp burning for five hours daily. Lamps burning for more hours or of larger capacity in proporti Payment to be in advance but no deposit or agreement is required.

The said deposit will be forfeited if the service is discontinued by the consumer in less than one year unless it is transferred to another without break".

2. The Government are inclined to agree to the suggestions of the Electrical Inspector to Government. The Commissioner, Hospet Municipality is requested to place those suggestions before Municipal Council and to communicate its decision.

Sir,

In enclosing a copy of the Council's Resolution No. 236 dated 12-9-1938 on the above subject I beg to inform you that the Council on consideration of a petition from some of the Sugar cane growers of the town praying for the reduction of the existing tariff approved in G. O. No. Ms. 511 dated 10-3-37 from 0-1-6 annas to one anna per unit, has revised the tariff from 0-1-6 to 0-1-0 anna per unit applicable to bonafide agriculturists and cottage industries. As the sugarcane crushing season is likely to commence from about the 15 th of October as on the petitioners

propose to utilise electric energy in the place of oil engines for crushing the canes I request that the Govern- ment may be pleased to sanction the revised rate propose by the Council and amend the Government Order referred t above accordingly.
